

FOR IMMEDIATE RELEASE

The Mobile Locker Co., National Leader in Event Storage Solutions, Announces Engagement with Two Top NFL Stadiums

Fans at both Gillette and AT&T Stadium will be able to safely store belongings using an industry-leading, professional solution as the Patriots and Cowboys welcome fans this season

BOSTON (October 5, 2020) – [The Mobile Locker Co.](https://www.themobilelockerco.com), the national leader in storage solutions for events, today announced its engagement to provide onsite storage services for two marquee NFL venues – Gillette Stadium in Foxboro, Massachusetts and AT&T Stadium in Dallas, Texas. The two venues will utilize The Mobile Locker Co. to help provide the safest possible environment for spectators to store belongings as fans return to live sporting events this fall.

Since 2014, The Mobile Locker Co.'s custom locker trucks and mobile bag check operations have delivered event organizers a turnkey solution for the storage of spectators' bags and other items not permitted into venues. The Boston-based startup has proven its reliability by supporting security teams to uphold safety policies at events of all sizes, including NFL, NBA, MLB, NHL and MLS venues, as well as NCAA football, PGA TOUR golf tournaments, runDisney events and large-scale concerts and festivals. This is the first year that Mobile Locker Co. has supplied services for Gillette Stadium, while it has worked with AT&T Stadium since 2019.

"We are incredibly excited to continue our partnership with these two amazing venues, offering both fans and event staff with a safe, sanitary and convenient way to secure valuables on game day," said Molly O'Connor, Founder and CEO of The Mobile Locker Co. "As fans begin returning to venues, we strive to provide a simple, yet effective solution for our event clients and a positive storage experience for their attendees."

The Mobile Locker Co. concept originated from O'Connor's experience as a runner at races, where she found onsite storage options far less than ideal. To improve this, she founded the company to offer a solution that made life easier for event organizers and attendees. In the six years since launching, the demand for secure, convenient storage has soared as venues rapidly increased their limitations to what patrons can bring into venues. The Mobile Locker Co. seized the opportunity to increase its service area to the full East Coast and then doubling its truck fleet to expand to the Mid-Atlantic, South, Southwest, Midwest and West Coast to become the largest mobile locker service in the U.S.

Along with providing convenience, The Mobile Locker Co. offers a safe solution for both venues and fans as spectators return amidst the COVID-19 pandemic. The company has rolled out a three-prong approach to safety that will include rigorous cleaning and sanitation of all internal and external exposure points at each venue, ensuring mask wearing and mirroring of COVID venue guidelines and a seamless contactless process for customer, athletes and stadium officials. Flexible to venue and local government guidelines, The Mobile Locker Co. adapts its onsite safety measures to meet and exceed the regulations for each of its clients.

"It is our goal to ease the burden for our partners by offering a convenient solution that provides attendees with the best possible event experience through peace of mind knowing that their belongings are safe and secure," O'Connor added.

The Mobile Locker Company prides itself on being able to offer customizable service options to independently fill the specific needs of its clients. To learn more about The Mobile Locker Co., please visit [TheMobileLockerCo.com](https://www.themobilelockerco.com).
